**About Our Speaker:**

**Dr. Norbert H. Maerz** received his Ph.D. from the University of Waterloo in 1990. He joined the University of Missouri at Rolla (now known as Missouri University of Science and Technology) in 1998, after working as a geological, geotechnical, and hydrogeological consultant. He is the president of a software company selling image analysis software to the mining and materials handling industries. His areas of interest include rock mass classification, rock engineering, slope stability, joint genesis, and computer applications and image processing in geological engineering.

## **Directions to Riverchase of Fenton**

990 Horan Drive, Fenton, Missouri 63026  
636-343-0067

From I-44, take the Bowles exit (~ 2.5 miles west of the intersection of I-44 and I-270) and head south on Bowles for about ½ mile, as it makes a 90 degree turn to the west then another back to the south. Turn left at Horan Drive and go about ½ mile. You will see a sign for Riverchase on the right side of the road. Take the long driveway up the hill to the parking lot. At the front desk, tell them you are there for the AEG meeting in the “Meramec Room”.
