

BENEFITS OF SPONSORSHIP

We are applied geology!

AEG is one of the very few organizations dedicated to supporting applied geology. Members of AEG include geologists specializing in engineering geology, environmental geology, and hydrogeology as well as other professionals in affiliated fields, such as civil and mining engineering, landuse planning, public policy and education.

Reach members throughout the year.

Go beyond just advertising to constantly connect with over 2,000 members online, in person, and through AEG's publications. This is the best way to support the profession while growing visibility for your business. Sign up for a sponsorship and start receiving benefits today!
